Are your NHS charitable funds being used to best effect?
How does the Department of Health's evolving policy impact upon your
NHS charitable funds?

Independent Charities

Evolving NHS policy now allows NHS charitable funds to be transferred to a newly established and independent charity. Wrigleys has significant experience in establishing new charities and can work with you to consider whether this is a viable option for your NHS charity.

“Can I say a huge thank you to you and the team for working with us to get to this fantastic solution – I have thoroughly enjoyed working with you and have appreciated your amazing knowledge about all legal charitable fund matters.”

Trustee Training

We provide governance support to charities through comprehensive trustee training. Our experience of working with trustees of NHS charitable funds has led to the development of training that is directly relevant to the legal duties and responsibilities of those trustees.

“The training helped us fully understand the Trust’s duties and has boosted the Board’s confidence in how it administers our NHS charity.”

Charity Policies

Using our knowledge and experience of assisting charities to strengthen their governance arrangements and our understanding of NHS policy and charitable funds, we support and advise NHS charities in reviewing and enhancing their policy documents and procedures.

“From the outset, it was clear that Wrigleys was extremely knowledgeable of the rules and regulations regarding NHS charities.”

“We were very pleased with your input and feel that we have a significantly more robust set of policies and governance arrangements as a result of the work that you undertook.”

Community Foundations

Where an independent charity is not a viable option, we can assist you to:

- harness the experience of the community foundations;
- liaise with the Department of Health to establish strategic health funds; and
- maximise the impact of the NHS charitable funds.
