*"We found Wrigleys very professional and easy to work with as they understand the complexities of the funding contracts we deliver and we are looking forward to working with Wrigleys in the future!"*  
 Sam Tarff - CEO - Key Fund Investments

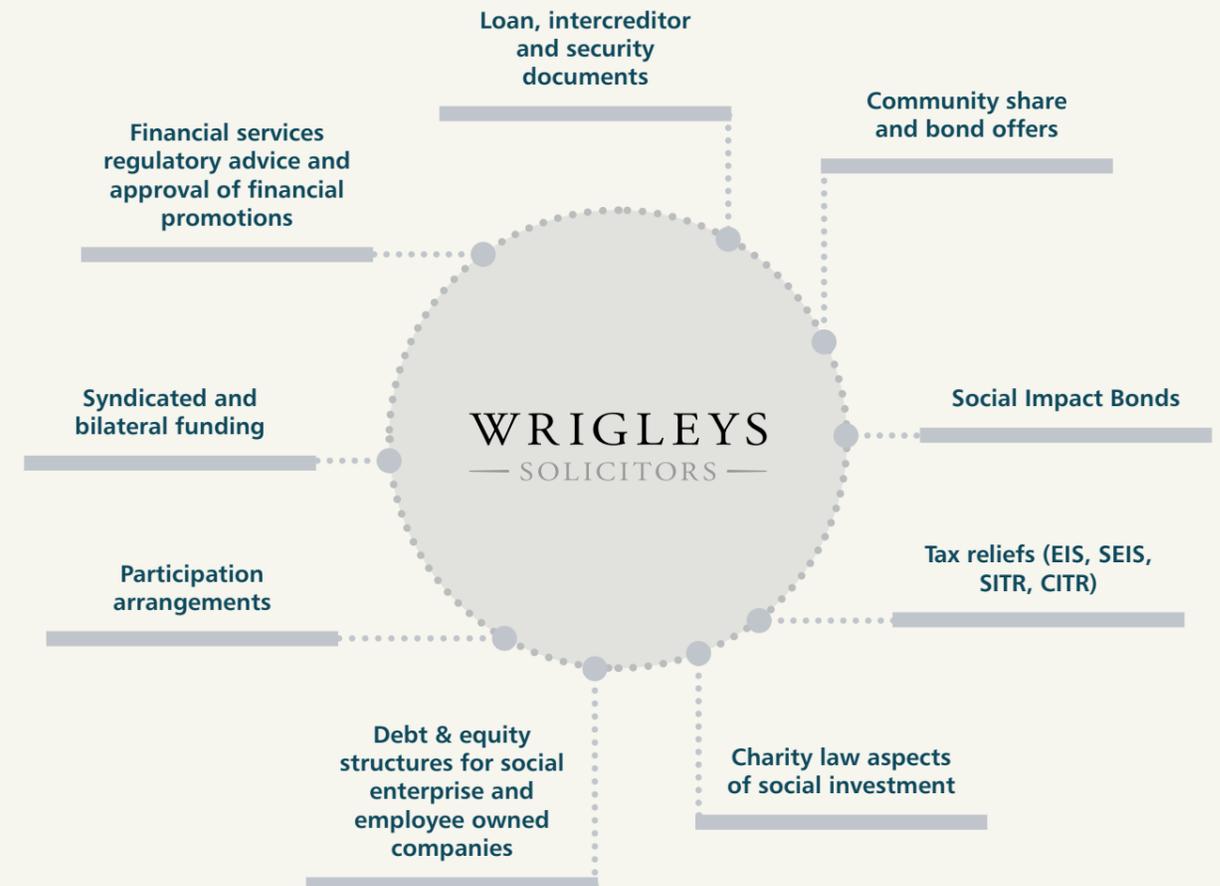

For over 25 years, solicitors from Wrigleys have been advising business enterprise funds and CDFIs on investments for social purposes. We have contributed to the development of this important area through our involvement with studies for the European Commission on the regulation of social banks in Europe, the International Labour Organization on financing microenterprise, the publication for the Charities Aid Foundation of the book "Social Investment and other financing techniques for voluntary organisations" and the establishment of the CDFA and the UK Sustainable Investment and Finance Association.

We advise both financial institutions and social enterprises, of all shapes and sizes, seeking financing across a variety of sectors. From drafting and reviewing loan, intercreditor and security documentation, to advising on community share and bond offers, our breadth of expertise means that we can provide significant support in this field. We are also authorised and regulated by the Financial Conduct Authority to give advice on financial promotions.

We act for a number of CDFIs, enterprise funds and credit unions, so we really understand the opportunities and challenges facing our clients and other organisations operating within the sector.
